PROFESSIONAL EXPERIENCE

TEJAS NETWORKS LTD. | HR Business Partner (HRBP)

Nov 2021 – Present

Strategic HRBP driving people strategy, workforce planning and operational excellence for a 2500+ employee global telecom networking company (NSE/BSE listed).

HR Business Partnering & Employee Experience

- ▶ Partner with C-suite and business leaders on workforce strategy, AOP headcount planning, talent deployment and organizational design to support business growth across geographies.
- ▶ Manage end-to-end employee lifecycle for 1,150+ employees spanning India, US, Middle East, and Malaysia — covering development, performance, employee connects, internal mobility, retention strategies, PIP support and offboarding, while proactively addressing workforce concerns.
- ▶ Lead performance management and promotion cycles for 2,200+ employees, including calibration reviews, PIP governance and manager enablement on feedback and development conversations.
- ▶ Conduct structured stay interviews for 130+ employees to identify attrition drivers; translate insights into targeted retention strategies presented to senior leadership.
- ▶ Handle complex employee relations matters including grievance redressal, disciplinary discussions and conflict resolution while ensuring policy adherence and equitable outcomes.

- ▶ Develop and present HR analytics dashboards (Power BI, Excel) providing leadership with real-time visibility into attrition trends, retention risks and workforce health metrics.
- ▶ Lead organization-wide employee engagement and listening survey initiatives for 2,200+ employees; convert findings into actionable programs improving satisfaction and productivity.
- ▶ Partner with leadership to review, revamp and strengthen HR policies ensuring compliance, fairness and alignment with business evolution.
- ▶ Redesigned Rewards & Recognition framework; implemented Vantage Circle platform — recognized with Spot Award for measurable impact on culture and engagement.
- ▶ Automated separation reporting pipelines using Power Automate and VBA scripting, reducing manual effort by significant margins and improving reporting accuracy.

Talent Acquisition & HR Analytics

- ▶ Managed full-cycle recruitment for niche R&D and software engineering roles across multiple business units; reduced hiring turnaround by 20% through process redesign.
- ▶ Revamped employee referral program, increasing referrals by 38% and reducing offer declines by 9% — closed 140+ offers across specialized technical skill sets.
- ▶ Closed 6 Architect openings within 45 days and critical NMS/Software roles within 2 weeks; received Appreciation Certificates for both.
- ▶ Partnered on compensation benchmarking, salary negotiations and RSU allocation for new hires and internal movements.
- ▶ Built dynamic talent pipeline reports and hiring velocity dashboards for senior stakeholders using Power BI and Excel automation.
